EXPERIENCE

October 2022 – February 2024
OutSystems Developer *in Headfitted Solutions Software Technology, Pune, India.*

During my time as a OutSystems developer at Headfitted Solutions for one year and four months, I worked in a fast-paced environment where new ideas were encouraged. I collaborated with different teams to create advanced software for various projects. I did tasks like designing strong backend systems, improving algorithms, and making user interfaces easy to use. I paid close attention to details and always aimed for high quality. I also learned a lot and built good relationships with my colleagues. Even when faced with challenges, I stayed resilient and worked with others to find solutions. Overall, my experience at Headfitted Solutions was a period of growth, teamwork, and making valuable contributions to new technologies.
